**Fields of work**

Networking science and industry; commissioning precompetitive research projects in the fields of laseroptical medical technology, digitalisation & robotics in healthcare, three-dimensional visualisation, spectroscopy, monitoring, detection, diagnostics, sensor technology, functionalisation of surfaces, high technology materials, precision mechanics using optical methods, human-machine interaction.

Members

49

Number of enterprises

35

therefrom 24 small and medium and 11 big enterprises

Executive board

Dr. Markus Safaricz

Year of foundation

1963

Full member since

1964
